# Business Retention, Attraction and Expansion (BRAE) Program

## **BRAE Program**

Rockingham County's Economic Development, Small Business and Tourism Department serves as a *ONE-STOP* for assisting entrepreneurs, businesses, and industries throughout the county. Located in the county seat of Wentworth adjacent to the Rockingham Community College, BRAE Specialists are dedicated to building long-term relationships with all of Rockingham County's existing companies. The BRAE Program acts as a liaison supporting and connecting resources for start-ups and growing business and industry.

BRAE Specialists work closely with existing companies to provide support from local, state, federal, and non-profit agencies to encourage growth and keep companies productive and globally competitive. This translates directly to both job retention and job creation while contributing to an increase in capital investment for example through the purchase of more efficient equipment. BRAE Specialists target existing business and industry to visit based on employment, industry sector, and strategic importance to the local economy resulting in more than 500 site visits with company leaders each year.

## ***Business Retention, Attraction, and Expansion (BRAE) Program***

### ***Serving as a Primary Point of Contact***

BRAE Specialists establish relationships with company leadership through a series of on-site visits. They gather information relating to current challenges, opportunities, and barriers to growth. Developed over time, such relationship building furthers dialogue about a company's possibilities for growth. Also identified in such discussions are a variety of challenges relating to such issues as environmental permitting, finding skilled workers, the need for additional capital, etc.

### ***Facilitating Expansion Projects***

Due to strong relationships with the Economic Development and Tourism office, when potential expansions are being considered, BRAE Specialists work confidentially and closely with company representatives to develop an incentive program designed to address growth needs and to encourage the expansion in Rockingham County. These proposals may include a combination of local, state, and non-profit support related to a location, utility infrastructure, zoning/permitting, workforce recruitment and training and performance-based incentive programs.

### ***Brokering Support from Network of Service Providers***

BRAE Specialists have broad knowledge of the local, state, federal and non-profit programs available to assist businesses, and recommend and facilitate the provision of these services in order to meet individual company needs.

#### What is an ACT® Work Ready Community?

ACT Work Ready Communities (WRC) empowers states, regions and counties with *data, process and tools* that drive economic growth. Participants are leveraging the **National Career Readiness Certificate (NCRC™)** to measure and close the skills gap — and building common frameworks that link, align and match their workforce development efforts.
